

Gundle[®]

TORNADO[®]
NETWRAP

**high
quality**

**optimal
performance**

**superior
strength**

**high UV
protection**

www.gundleapi.co.za

Tested on all common types of round baling machines used worldwide.

- CASE
- JOHN DEERE
- McHALE
- PÖTTINGER
- CLAAS
- KRONE
- NEW HOLLAND
- SIPMA
- DEUTZ-FAHR
- MASCAR
- ORKEL
- VICON

- Applicable for hay, straw, silage or dried fodder crops packing
- Superior tensile strength of the net
- Bales are symmetrically FULLY COVERED from one edge to another
- Last 50 m of net on the roll are marked by red stripe informing the operator about necessity to prepare new roll
- High UV protection guarantees longer lifetime and reliability of the net on field

- Round bale netwrap is manufactured from high quality raw material using advanced technological processes.
- Rolls of netwrap are packed in PE bags. Both ends of cardboard tube are protected with plastic plugs.

- Coloured edges inform the operator about right and left side of the roll making the correct loading easier
- Continuous quality control during production process in accordance with ISO certification
- Identification of each roll by unique bar code enables to trace the roll back in production
- Produced from environment-friendly HDPE (high-density polyethylene)

Technical Specifications

PRODUCT NAME	WIDTH	LENGTH	ROLLS / PALLET	STRENGTH
TORNADO ROLL TORNADO NET	123 cm	2000 / 3000 m	32 / 28 pcs	270 kg
	125 cm	2000 / 3000 m	32 / 28 pcs	
	130 cm	2000 / 3000 m	32 / 28 pcs	
TORNADO WRAP TORNADO NET	123 cm	2600 / 3600 m	32 / 28 pcs	270 kg
	125 cm	2600 / 3600 m	32 / 28 pcs	
	130 cm	2600 / 3600 m	32 / 28 pcs	
TORNADO NET	60 cm	1400 cm	64 pcs	120 kg

- The development of netting is focused on its strength, elongation and coverage of bales.
- Our skilled and qualified personnel pride themselves on their high quality of customer service and innovation approach.
